

STRENGTHENING CRITICAL INFRASTRUCTURE AGAINST NATURAL HAZARDS PROJECT BANK PROTECTION PROCESS

Under the “Strengthening critical infrastructure against natural hazards” Project (SCINHP), coastal protection structures are being rehabilitate in three districts of the Khatlon region. Of these, the flood control system of Say Dakhana in the city of Kulyab, the basins of Yakhsui Surkhob rivers in Vose district and the left bank of Kafirnigan river in Kabadiyan district. During the implementation of the activities, a new facility was additionally added, located in Jamoat Kh. Rajabov of Vose district, near the Kaftarkhona village.

The total length of coastal protection structures to be restored is 27.5 km, including:

Kulyab zone 11.8 km;

Bokhtar zone - 15.7 km.

Of these:

20.9 km - Construction of new dams (dams completely destroyed by mudflows);

6.8 km - Rehabilitation of dams (dams partially destroyed by mudflows).

All coastal protection facilities in the city of Kulyab and Vose district have been rehabilitated and put into operation

The bank protection in Kulyab city is 4.5 km of the dam:

Site No. 1. Rehabilitation of bank protection dams -4.5 km, Kulyab.

General overview of the Zarqala-2 site before and after construction.

General overview of Yekhsuchiyon 1 and 1”A” before and after construction - 895 m.

Vose district - bank protection of 7.3 km of the dam.

Restoration facilities are located in Tugarak, A. Avazov, Guliston, M. Vaisov and Kh. Radjabov jamoats

Mehrobod (Kurbonshahid) and Chavrez-1 villages - 1025 m.

General overview of the dam at the Sari Parom site, L-581m. Left bank of the Surkhob river.

Condition of the site before and after construction.

General overview of the dam at the site near of Mehrobod village, L -444, Vose.

Condition of the site before, during and after construction.

Sari Parom and the confluence of the Surkhob and Yakhsu rivers)

Site No. 2, Shobika and Larkhobi, Vose.

General overview of the object before and after construction.

New added object in the territory of Kaftarkhona village -735m, Vose.
